

21
2
(1997) larger DA release (higher reward)
↳ lower initiation time

DA
SfN
Dobos } affected by ~~acute~~ ^{chronic} Nicotine
in fetal state

- Fasteneger receptor give NO
like his effect
of 1/2 DA release 1/2 of reward
↳ so 1/2 learning

[Check H&A 300mler program]

Check ^{Pharmacology} Day 2 Memory Attention

Export talk

Acid release stress induced
in ventral hippocampus (Memory)

Idea = H&A don't get hierarchical approach
correl to completion
↳ All S&A
