

BBB + Locomotor Center → peak delay
+ mice → peak hypoxia
→ De Boyer

Ferrel + STS experience
delay in gray AC
→ activity in AC

in humans: More peak markers
peak hypoxia
Could be due to stress

8.30] Early interaction (nets) or (SfN)

1.11 letter for paper
1.11 letter for note

Exposure to individual

(1.1) LC → Cerebellar activity modulation
